The Kiddle

Where curiosity grows through play and creativity

Jungle Explorer Adventure

A Note for Parents:
This week, your **kiddler** will build early skills in fine motor control, sequencing, phonics, and logical thinking through coloring, dot-to-dot, sound play, and riddles.
Here's how you can join in:

Color & Connect The Dots
Sit together, guide gently, and celebrate effort.

Logic Time
Let them try first—offer hints if needed.

Phonics & Experiment
Practice sounds through play, then explore the experiment together—encourage your child to learn a new skill today.

Fun Fact
Have a quick chat—spark curiosity.

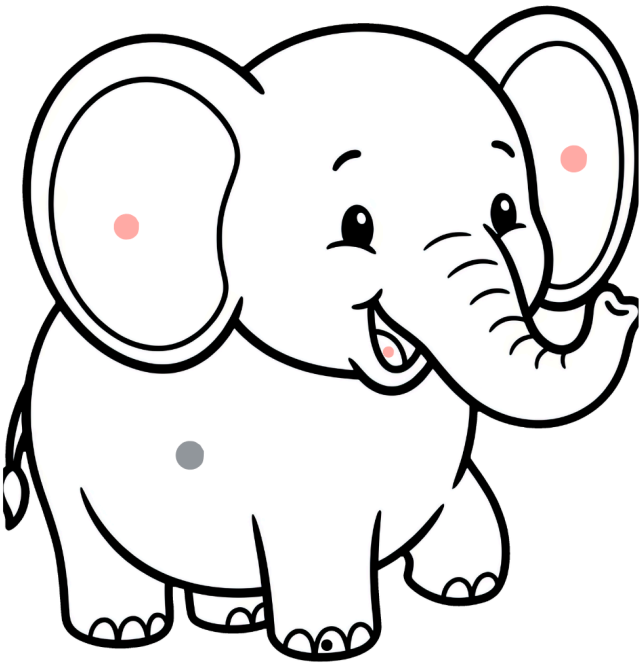
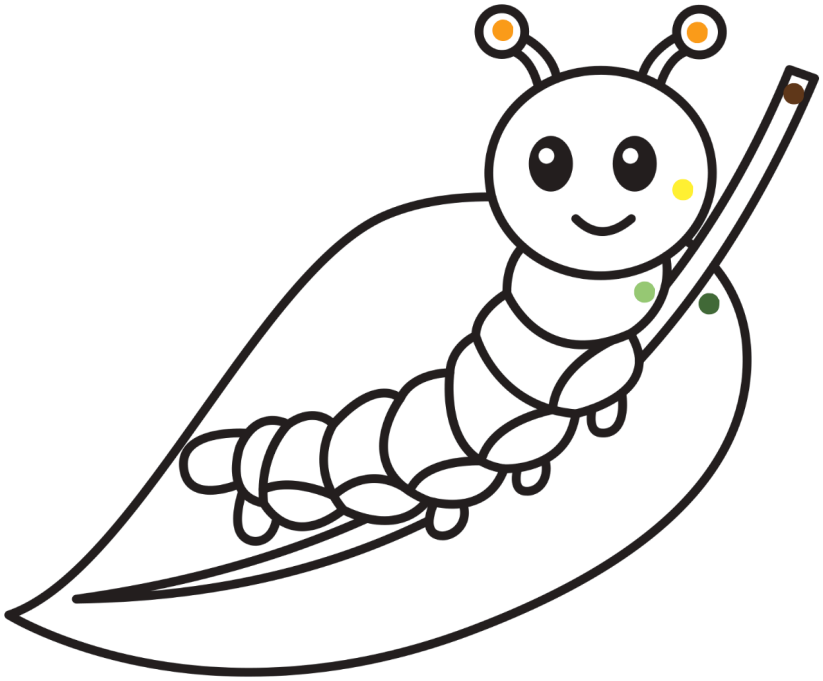
Color It In!

Match the colors and fill the picture.

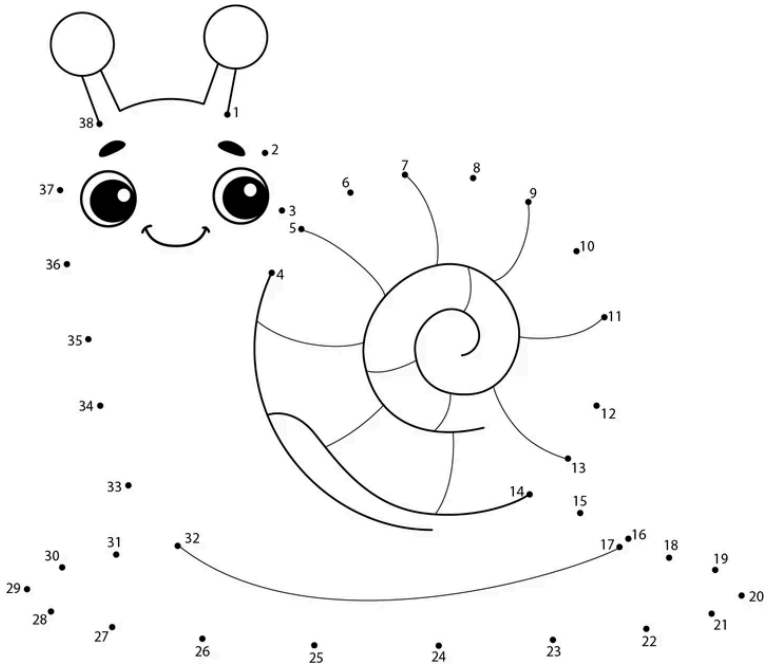


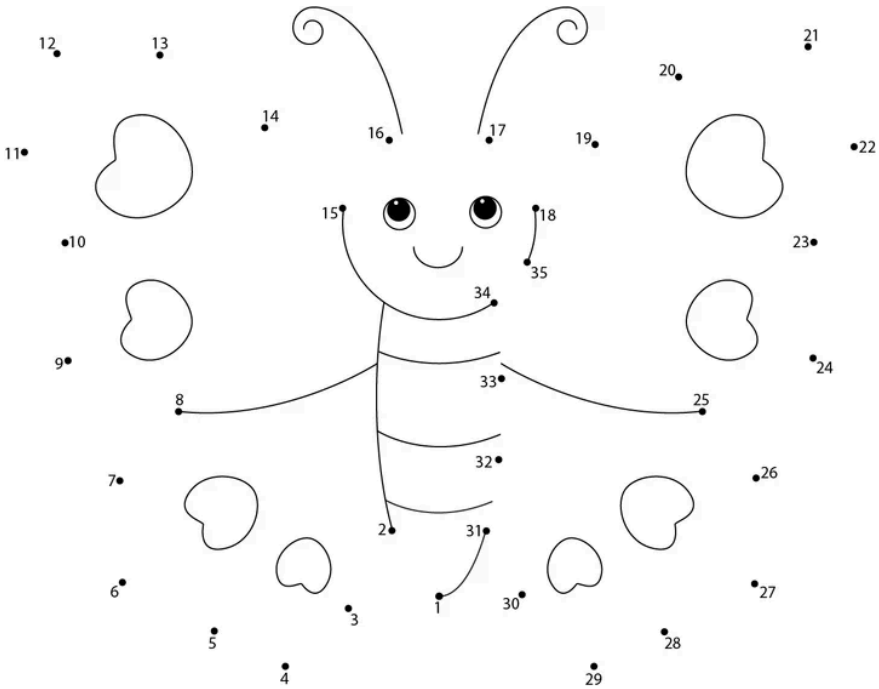


© 2026 The Kiddle | www.thekiddle.com

Connect the Dots!

Connect the dots in order and discover the shape!





© 2026 The Kiddle | www.thekiddle.com

Logic Time!

Circle the right answer:

I have 4 legs, I say 'Woof!' and I love to fetch sticks. What am I?

I am black and white, I live in cold icy places, and I cannot fly. What am I?

I have 8 legs, I spin webs, and bugs get stuck in them. What am I?

Circle the one that does NOT belong:

📚 Learning of the week!

Sound of the Week: “AT”
Say it together: “Aaa-t… AT!”

Silly rhyme - Clap every time you hear an AT word!
The fat cat sat on a mat — just like that!

Spot the Sound
Circle the words that have the “AT” sound:

🐱	🐶	🦇	🐟	🐀
CAT	**DOG**	**BAT**	**FISH**	**RAT**

🧪 Experiment of the week!

Imagine a tiny jungle pond where lots of little ants are floating on leaves. When a soapy monkey finger touches the pond…the ants RUN AWAY! Let’s see how!

What You Need:
- *Plate*
- *Water*
- *Black pepper (imagine as ants)*
- *Dish soap*

What To Do:
1. *Fill plate with water (this is your jungle pond)*
2. *Sprinkle pepper on top (your tiny jungle ants)*
3. *Dip finger in soap*
4. *Touch the water (you are the soapy monkey!)*

What Happened?
BOOM — ants run away!

Why?
Water has an invisible skin that holds the pepper (parents - it’s the surface tension ;)). Soap breaks it—so the pepper — oops, ants — run away!

🏃 Time to move!

Pretend you're an explorer in the jungle! Follow the steps and get moving!

Frog Jumps: Jump up and down 10 times shouting 'Ribbit!'
Butterfly Flap: Stand still and flap your arms up and down like wings for 20 seconds!
Elephant Stomp: Stomp your feet like a big elephant—10 stomps each!

🌟 Did You Know?

Butterflies taste with their FEET!

They have special taste sensors on their tiny feet so they can tell if a leaf is good to eat just by standing on it!

Great Job!

You explored, learned, and played today — that's amazing! See you again for more fun...
